INTRODUCTION

The Federal Highway Administration (FHWA), as the Lead Federal Agency, and the Maryland Department of Transportation State Highway Administration (MDOT SHA), as the Local Project Sponsor, have reviewed and considered all comments received on the Draft Environmental Impact Statement (DEIS) and Supplemental Draft Environmental Impact Statement (SDEIS). Appendix T of this Final Environmental Impact Statement (FEIS) presents comments received during the official comment periods on the DEIS and SDEIS. The DEIS comment period was 123-days, from July 10, 2020 to November 9, 2020. During this comment period, 2,909 comments were received through a variety of means including oral testimony during the six public hearings, email, letter, voicemail, and online comment form. The SDEIS comment period was 60-days, from October 1 to November 30, 2021. During this comment period, 2,138 comments were received through a variety of means including oral testimony during the public hearing, email, letter, voicemail, and online comment form. The public comment periods for both the DEIS and SDEIS allowed governmental agencies, community organizations, elected officials, businesses, and individuals an opportunity to provide comments.

As comments were received, they were reviewed, considered, and uploaded to a database used as a repository for comments received. Comments requiring a technical response were assigned to the appropriate technical staff. Comments that reflected common interests and opinions were assigned common topics and were responded to using thematic comment responses developed by the technical team. Refer to **FEIS, Chapter 9**.

Comments in this Appendix have been categorized by the commenting entity or individual as: agency comments, community organization comments, elected official comments, business comments, form letters, or individual comments. Form letter comments are comments that were submitted by individuals containing mostly the same language or content and were responded to accordingly. Duplicative comments submitted by the same entity were considered as one comment and thus are not listed multiple times in this Appendix. All substantive comments received during the public comment period have been responded to in this Appendix. Comments received, between or after the comment periods, were considered in the decision-making process and reflected in the project record but are not included in this Appendix.

An index has been developed to aid readers in finding both a response to their DEIS/SDEIS comments as well as the copy of their comments received. The index is organized first by the commenting entity (i.e. community organization, business, etc.) or individual, then alphabetical by the commenter's last name or organization. The DEIS Comment and Response Index can be found on Page 2 of Appendix T and the SDEIS Comment and Response Index on Page 67 of Appendix T.

Refer to Appendix T Section T.1 for agency comment responses, T.2 for community organization comment responses, T.3 for elected official comment responses, T.4 for business comment responses, T.5 for form letter comment responses and T.6 for individual comment responses. For thematic comment responses, refer to Chapter 9 of the FEIS.

Draft Environmental Impact Statement Comment and Response Index
